

It has come to our attention that there is a rumor circulating around Neptune City about the closing of Woodrow Wilson Elementary School. Please rest assured that there is absolutely NO validity to that information.

We have worked hard to develop an educational program that supports our diverse community. Neptune City is experiencing the same trends as the majority of school districts in New Jersey. decreasing enrollment, cuts in State Aid and school funding, and increased State mandates. Yet, we continue to grow and are proud of all our programs and support we offer our students and families in Neptune City.

As we continue to address funding challenges and issues in school, Neptune City School Administration and Board of Education continually meet with legislators to advocate for Woodrow Wilson Elementary School.

**Great things are happening in Woodrow Wilson Elementary School:**

Recipient of the OceanFirst Model Classroom Grant to create a 21st Century Learning Lab  
Recipient of PreSchool Education Expansion Aid to address the needs of preschool education  
Sustainable NJ School

Recipient of the Leader.Org Grant to build our Leader in Me Program  
Host of the Neptune City Inaugural Math League Competition  
Technology infused instruction with a one to one Chromebook initiative in grades 4-8  
Full time Security Officer, Officer Mike. NCPD  
And so much more!

To borrow the words of William Shakespeare

*“Though we be but little, we are fierce”*

Christine Oppegaard  
President  
Neptune City Board of Education

Debra Mercora  
Chief School Administrator  
Neptune City Board of Education
