2240 CONTROVERSIAL ISSUES

The Board of Education believes that the consideration of controversial issues has a legitimate place in the instructional program of the school. Properly introduced and conducted, the consideration of such issues can help students learn to identify important issues, explore fully and fairly all sides of an issue, weigh carefully the values and factors involved, and develop techniques for formulating and evaluating positions.

For purposes of this policy a controversial issue is a topic on which opposing points of view have been expressed by responsible and thoughtful persons; likely to arouse both support and opposition in the community; not expressly enumerated in the course guide as appropriate for the course of study; subject to interpretation as obscene, profane, doctrinaire, or grossly inappropriate, each in relation to the level of maturity of the students concerned.

The Board will permit the introduction and proper educational use of controversial issues provided that their use in the instructional program is related to the instructional goals of the course of study and level of maturity of the students. The discussion of controversial issues must not tend to indoctrinate students or persuade them to a particular point of view. Instead, teachers must encourage fair presentation and open-mindedness and the free exchange of ideas in a spirit of scholarly inquiry, drawing upon information and insights from the widest feasible range of resources.

When the consideration of controversial issues have not been specified in the course guide, the Board will permit the instructional use of only those issues that have been approved in advance by the Chief School Administrator who shall periodically report such approval to the Board for its review.

The discussion of controversial issues in the classroom will be conducted in an unprejudiced and dispassionate manner and cannot be allowed to disrupt the educational process. In the discussion of any issue, a teacher may express a personal opinion, provided the expression is characterized as personal opinion and does not attempt to persuade students to the teacher's point of view.

The Chief School Administrator shall assist teaching staff members in developing a sensitivity to the occurrence of controversial issues in the context of the curriculum and developing techniques for the management of controversial issues that do not stifle a spirit of free inquiry.

2270 RELIGION IN THE SCHOOL

The Board of Education recognizes that religious belief and disbelief are matters of personal conviction rather than governmental authority and the students of this district are protected by the First Amendment of the United States Constitution and by Article I, Paragraph 4 of the New Jersey State Constitution from the establishment of religion in the school. The First Amendment requires public school officials to show neither favoritism toward nor hostility against religious expression such as prayer.

The United States Department of Education's Guidance on Constitutionally Protected Prayer and Religious Expression in Public Elementary and Secondary School (USDOE Guidance) provides information on the current state of the law concerning religious expression in public school.

The following activities as outlined in the USDOE Guidance will be permitted upon applying the governing constitutional principles in particular contexts related to: prayer during non-instructional time; organized prayer groups and activities; teachers, administrators, and other school employees' activities; moments of silence; accommodations for prayer during instructional time; prayer in classroom assignments; student assemblies and noncurricular events; prayer at graduation; and/or baccalaureate ceremonies.

The following activities as outlined in the USDOE Guidance will be permitted upon applying the governing constitutional principles in particular contexts related to religious expression: religious literature; teaching about religion; student dress codes and policies; and/or religious excusals.

The Equal Access Act, 20 U.S.C. Section 4071, is designed to ensure that student religious activities are afforded the same access to Federally funded public secondary school facilities as are student secular activities. The United States Department of Justice has developed guidance for interpreting the Equal Access Act's requirements outlined in the USDOE Guidance in the area of general provisions, prayer service and worship exercises, means of publicized meetings, lunch-time and recess, and leadership of religious student groups.

2310 STUDENT GROUPING

The Board of Education believes that each student should be provided with the instruction that will best suit his/her intellectual, physical, emotional, and social capabilities. The Board authorizes the Chief School Administrator to develop a schedule and class organization that will provide for the placement of students in instructional groups that will offer them the greatest educational benefit.

The grouping of students should be flexible and should take into consideration the age, mental ability, past academic record, emotional needs, physical maturity, and interests of each student.

2312 CLASS SIZE

The Board of Education directs that the number of students assigned to any one class be governed by considerations of instructional quality and economy of operation.

A desired range for the minimum and maximum number of students that shall be assigned to regular classes shall be established by the Board.

The Chief School Administrator shall prepare guidelines for class size. Maximum limits shall take into account the subject matter, type of instruction, ability of students, availability of aides, and use of special facilities and equipment and may be waived to accommodate the demands of a temporary increase in enrollment.

2330 HOMEWORK

The Board of Education acknowledges the educational validity of work assigned to students for completion outside the classroom as an adjunct to and extension of the instructional program of the school.

The Chief School Administrator shall develop regulations for the assignment of homework according to these guidelines:

1. Homework should be a properly planned part of the curriculum, extending and reinforcing the learning experience of the school;
2. Homework should help children learn by providing practice in the mastery of skills, experience in data gathering and integration of knowledge, and an opportunity to remediate learning problems;
3. Homework should help develop the student's responsibility and provide an opportunity for the exercise of independent work and judgment;
4. The number, frequency, and degree of difficulty of homework assignments should be based on the ability and needs of the student and take into account other activities that make a legitimate claim on the student's time;
5. As a valid educational tool, homework should be clearly assigned and its product carefully evaluated and that evaluation should be reported to the student;
6. The school should recognize the role of parent(s) or legal guardian(s) by suggesting ways in which parent(s) or legal guardian(s) may assist the school in helping a child carry out assigned responsibilities;
7. Homework should always serve a valid learning purpose; it should never be used as a punitive measure.

2340 FIELD TRIPS

The Board of Education recognizes that field trips properly planned and integrated with the curriculum are an educationally sound and important part of the program of the school that can supplement and enrich classroom instruction by providing learning experiences in an environment outside the school.

For purposes of this policy, a field trip means any journey by a group of students away from the school premises, under the supervision of a teacher, and integrally related to an approved course of study.

The Board of Education shall approve those field trips which take students more than fifty miles from this district or are planned to keep students out of the district overnight or longer. The Chief School Administrator shall approve all other field trips.

The Board may authorize field trips for which all or part of the costs are borne by the students' parent(s) or legal guardian(s), except that no student in a special education class or student unable to pay the cost assessed shall be prohibited from attending a field trip. (N.J.S.A. 18A:36-21)

The determination of a student's inability to pay will be based upon the student's eligibility for free and reduced meals in accordance with Board Policy No. 8540.

Students on field trips remain under the supervision of this Board and are subject to its rules and regulations.

The Chief School Administrator shall prepare regulations for the operation of field trips that ensure that the safety and well-being of students shall be protected at all times; that parental permission is sought and obtained before any student may be removed from the school for a field trip; that each field trip is properly planned, integrated with the curriculum, and followed up by appropriate activities that enhance its usefulness; that the effectiveness of field trip activities are monitored and continually evaluated; that teachers are allowed a considerable degree of flexibility and innovation in planning field trips; that no field trip will be approved unless it contributes to the achievement of specified instructional objectives; and that teachers are not permitted to make on-site alterations to a trip itinerary, except where the health, safety or welfare of students is imperiled or where changes or substitutions beyond the control of the teacher have frustrated the purpose of the trip.

2360 USE OF TECHNOLOGY

The Board of Education recognizes the use of technology in the educational process is an essential part of the schooling experience. Technology is to be viewed as a resource to enhance the learning process among other resources available to teachers and students. In addition, technology can be used to enhance the administration of the school. In order to provide direction and meaning to the use of technology as an instructional resource, the Board encourages and supports staff use of technology as a component of the learning process.

For purposes of this policy “technology” includes, but is not limited to, the use of computers and computer peripherals, communications networks, access to databases and libraries of information and the integration of audio, video, multimedia devices and media for purposes of teaching and learning.

The Chief School Administrator, in consultation with teaching and support staff, shall recommend to the Board the acquisition of appropriate technology to best implement the curricular, instructional, and administrative program of the school district. The Chief School Administrator shall prepare a technology plan for the school district to encompass the following:

Curricular, Instructional and Administrative Need

The technology plan shall define the curricular, instructional and administrative need for technological equipment and media for the district.

In-service Education

The Board shall provide opportunities for school staff to participate in in-service programs on hardware or software programs to be used in the execution of educational and administrative tasks. In-service programs may be provided in or out of the district.

Standards, Codes and References

All technology installations shall conform to the industry standards and applicable Federal, State and local statutes and codes.

Facilities Planning

In all facilities projects involving new constructions, additions, and renovations the Chief School Administrator or designee shall ensure the plans include provisions for current and future technology needs in terms of the structural, electric/electronic, mechanical, acoustical and visual systems of the building(s). All educational specifications shall include features required for the use of instructional technology.

The Chief School Administrator will recommend the purchase of upgrades to software as needed. An evaluation of upgrades shall be made by appropriate personnel and no upgrade shall be purchased without the express approval of the Chief School Administrator.

Site Licenses

In the event a site license is not possible, vendors shall be sought who will provide multiple copies at a discounted cost.

Software Copyright

All employees shall strictly adhere to the copyright laws of the United States. No software shall be copied and/or distributed except in accordance with these laws. All software placed on media workstations or any network with public access shall be copy protected by the Chief School Administrator, who shall assure that individuals who have access to such programs shall not copy them without authorization.

Internal Communication (District)

The school district shall provide communication by a variety of means.

External Communications

The Board encourages the use of external communications so the school may utilize the vast resources of external databases and communicate with other schools, external agencies, and businesses throughout the world. Gateways to such communications will be supported by the school district. The use of particular gateways shall be approved by the technology teacher. The technology teacher shall be responsible for the installation of software in district owned computers and/or computer systems that prevents access to gateways and Internet sites that have material considered by the Board of Education to be inappropriate for use by students.

Computer Laboratories and Distributed Computing

In order to provide teacher, staff, and student access to computers, the Board directs that provisions be made to provide computer access in computer laboratories, classrooms, and school libraries/media centers.

Audio/Video

All audio and/or video materials shall be used in accordance with the copyright laws of the United States. Teachers, students, or staff who create audio or video materials containing the voices or images of the individuals involved shall obtain proper releases from those individuals, their parent(s) or legal guardian(s) for instructional use within the school.

Informing Parents, Legal Guardians and Interested Parties

Upon request, the Building Principal shall make available to parent/legal guardians the computer hardware and software used in the district in order that a computer purchased privately for home use may be compatible with the computer and software the student uses in the school setting.

Technology Coordination

The Board shall appoint a technology teacher to assure the technology needs of the district are met in the most efficient manner possible at the lowest costs available to meet specified needs.

Broadcast Rights and Copyrights

The Board specifically retains the Broadcast rights and copyrights to all materials created by employees of the Board as part of their responsibilities to the Board. Any financial remuneration for the use of such materials shall be retained by the Board.

Computer Security

The Chief School Administrator shall develop security procedures to include, but not be limited to, the following areas:

2361 ACCEPTABLE USE OF COMPUTER NETWORKS/
COMPUTERS AND RESOURCES

The Board of Education recognizes as new technologies shift the manner in which information is accessed, communicated, and transferred; these changes will alter the nature of teaching and learning. Access to technology will allow students to explore databases, libraries, Internet sites, and bulletin boards while exchanging information with individuals throughout the world. The Board supports access by students to these information sources but reserves the right to limit in-school use to materials appropriate for educational purposes. The Board directs the Chief School Administrator to effect training of teaching staff members in skills appropriate to analyzing and evaluating such resources as to appropriateness for educational purposes.

The Board also recognizes technology allows students access to information sources that have not been pre-screened by educators using Board approved standards. The Board therefore adopts the following standards of conduct for the use of computer networks and declares unethical, unacceptable, or illegal behavior as just cause for taking disciplinary action, limiting or revoking network access privileges, and/or instituting legal action.

The Board provides access to computer networks/computers for educational purposes only. The Board retains the right to restrict or terminate student access to computer networks/computers at any time, for any reason. School district personnel will monitor networks and online activity to maintain the integrity of the networks, ensure their proper use, and ensure compliance with Federal and State laws that regulate Internet safety.

Standards for Use of Computer Networks

Obscene activities shall be defined as a violation of generally accepted social standards for use of publicly owned and operated communication vehicles.
- B. Using the computer networks/computers to violate copyrights, institutional or third party copyrights, license agreements or other contracts.

- C. Using the computer networks in a manner that:
1. Intentionally disrupts network traffic or crashes the network;
 2. Degrades or disrupts equipment or system performance;
 3. Uses the computing resources of the school district for commercial purposes, financial gain, or fraud;
 4. Steals data or other intellectual property;
 5. Gains or seeks unauthorized access to the files of others or vandalizes the data of another person;
 6. Gains or seeks unauthorized access to resources or entities;

 9. Posts anonymous messages;
 10. Possesses any data which is a violation of this Policy; and/or
 11. Engages in other activities that do not advance the educational purpose for which computer networks/computers are provided.

Internet Safety Protection

As a condition for receipt of certain Federal funding, the school district shall be in compliance with the Children's Internet Protection Act, the Neighborhood Children's Internet Protection Act, and has installed technology protection measures for all computers in the school district, including computers in media centers/libraries. The technology protection must block and/or filter material and visual depictions that are obscene as defined in Section 1460 of Title 18, United States Code; child pornography, as defined in Section 2256 of Title 18, United States Code; are harmful to minors including any pictures, images, graphic image file or other material or visual depiction that taken as a whole and with respect to minors, appeals to a prurient interest in nudity, sex, or excretion; or depicts, describes, or represents in a patently offensive way, with respect to what is suitable for minors, sexual acts or conduct; or taken as a whole, lacks serious literary, artistic, political, or scientific value as to minors.

This Policy also establishes Internet safety policy and procedures in the district as required in the Neighborhood Children's Internet Protection Act. Policy 2361 addresses access by minors to inappropriate matter on the Internet and World Wide Web; the safety and security of minors when using electronic mail, chat rooms, and other forms of direct electronic communications; unauthorized access, including "hacking" and other unlawful activities by minors online; unauthorized disclosures, use, and dissemination of personal identification information regarding minors; and measures designed to restrict minors' access to materials harmful to minors.

Notwithstanding blocking and/or filtering the material and visual depictions prohibited in the Children's Internet Protection Act and the Neighborhood Children's Internet Protection Act, the Board shall determine other Internet material that is inappropriate for minors.

In accordance with the provisions of the Children's Internet Protection Act, the Chief School Administrator or designee will develop and ensure education is provided to every student regarding appropriate online behavior, including students interacting with other individuals on social networking sites and/or chat rooms, and cyberbullying awareness and response.

The Board will provide reasonable public notice and will hold one annual public hearing during a regular monthly Board meeting or during a designated special Board meeting to address and receive public community input on the Internet safety policy - Policy and Regulation 2361. 2363 STUDENT USE OF PRIVATELY-OWNED TECHNOLOGY

The Board of Education recognizes technology is always changing and as a result of increased accessibility to technology many students possess technology devices for their use during non-school hours. These privately-owned devices may be beneficial to students during school hours for approved educational purposes. Therefore, the Board of Education will allow students to use their privately-owned technology devices under conditions outlined in this Policy.

For the purpose of this Policy, “technology” means hardware or software.

For the purpose of this Policy, “privately-owned” means technology hardware and software that is purchased, owned, and maintained by the student at no expense to the school or school district.

For the purpose of this Policy, “hardware” means any device that can store, access, retrieve, and/or communicate data or information. “Hardware” may include, but is not limited to, any type of computer device; wireless telephone; electronic reader; personal digital assistant (PDAs); video broadcasting and/or recording device; or camera.

For the purpose of this Policy, “software” means any computer program(s) or related data that provide instruction for telling a computer or other hardware device what to do and how to do it.

The use of privately-owned technology by a student in the educational program during the school day must be approved by the student’s parent or legal guardian and the school teaching staff member responsible for supervising and/or providing the student’s instructional program. A teaching staff member may approve a student’s use of privately-owned technology based on the assignment(s) to the student. The teaching staff member may also prohibit the use of privately-owned technology for an assignment(s).

Teaching staff members must get prior approval from their immediate supervisor or Principal before allowing students to use privately-owned technology during instructional time.

Students who use privately-owned technology in school will not be given access to the school district’s computer server(s) or network(s). In the event the teaching staff member approves the use of privately-owned technology to access the Internet, the access must be through the privately-owned technology without the use of any school district hardware or software. A teaching staff member who approves a student to use their privately-owned technology to access the Internet during instructional time will provide the student with a list of approved Internet sites the student is permitted to access. A student granted such permission must comply with school district policies and regulations regarding acceptable use of computers and technology. Any use of privately-owned technology by a student shall be in strict accordance with the teaching staff member’s specific approval(s) and Board policies and regulations. Any violation will subject the student to appropriate discipline and/or grading consequences.

Student Use of Privately-Owned Technology

The teaching staff member, in considering the use of privately-owned technology, will ensure such approval does not provide any advantage or benefit to the student who owns such technology over the student who does not own such technology. The teaching staff member will not approve the use of privately-owned technology if the teaching staff member determines the use would be advantageous or beneficial to the student who owns such technology over the student who does not own such technology.

The school district assumes no responsibility for any privately-owned technology brought to school by a student. The student shall be responsible for the proper operation and use of any privately-owned technology brought to school. 2412 HOME INSTRUCTION DUE TO HEALTH CONDITION

The Board of Education shall provide instructional services to an enrolled student, whether a general education student in Kindergarten through grade eight or special education student age three to twenty-one, when the student is confined to the home or another out-of-school setting due to a temporary or chronic health condition or a need for treatment that precludes participation in their usual education setting, whether general or special education.

A parent's request for home instruction shall include a written determination from the student's physician documenting the projected need for confinement at the student's residence or other treatment setting for more than ten consecutive school days or twenty cumulative school days during the school year. The written determination from the student's physician shall be forwarded to the school physician, who shall either verify the need for home instruction or provide reasons for denial. The parent shall be notified concerning the school physician's verification or reasons for denial within five school days after receipt of the written determination by the student's physician.

The school district shall be responsible for the costs of providing instruction in the home or out-of-school setting either directly, or through online services, including any needed equipment, or through contract with another district Board of Education, Educational Services Commission, Jointure Commission, or approved clinic or agency. The school district shall provide instructional services within five school days after receipt of the school physician's verification or, if verification is made prior to the student's confinement, during the first week of the student's confinement to the home or out-of-school setting.

The home or out-of-school instruction shall meet the minimum standards as required in N.J.A.C. 6A:16-10.1(c). The school district shall establish a written plan for delivery of instruction and maintain a record of delivery of instructional services and student progress. The teacher providing instruction shall be a certified teacher. The teacher shall provide instruction for the number of days and length of time sufficient to continue the student's academic progress and dependent upon the student's ability to participate.

For a student with disabilities, the home instruction shall be consistent with the student's Individualized Education Plan (IEP) to the extent appropriate, and shall meet the New Jersey Student Learning Standards. When the provision for home instruction for a student with disabilities will exceed thirty consecutive school days in a school year, the IEP team shall convene a meeting to review and, if appropriate, revise the student's IEP.

2414 PROGRAMS AND SERVICES FOR STUDENTS IN HIGH POVERTY AND IN HIGH NEED SCHOOL DISTRICTS

High poverty school districts are required to provide programs and services that address class size and Kindergarten programs. High need school districts are required to provide programs and services that focus on improving instruction in literacy and mathematics.

A high poverty school district for the purposes of this policy means a school district in which forty percent or more of the students are “at risk” as defined in N.J.S.A. 18A:7F-45. Class size in high poverty school districts shall not exceed twenty-one students in grades Kindergarten through three, twenty-three students in grades four and five, and twenty-four students in grades six through twelve. However, if the district chooses to maintain lower class sizes in grades Kindergarten through three, class sizes in grades four and five may be equal but not exceed twenty-five students. Exceptions to these class size requirements are permitted for some physical education and performing arts classes, where appropriate. High poverty school districts shall maintain all existing full-day Kindergarten programs with a teacher’s aide for each classroom. Class size for these Kindergarten classrooms shall not exceed twenty-one students.

High need school districts for the purpose of this policy are high poverty school districts that are below proficiency levels on State assessments as outlined in N.J.A.C. 6A:13-3.3(a). The New Jersey Department of Education shall identify the list of high need school districts based on State assessment results and shall promptly notify the districts that are classified as high need. In the first school year immediately following such identification as a high need school district, the district shall begin planning for implementation of, and shall implement where possible, the designated program(s). In the subsequent year following identification as a high need school district, the district shall fully implement the designated program(s). High need school districts, once identified, shall remain in that status and shall continue to implement the designated program(s) for a minimum of three years.

High need school districts where less than eighty-five percent of total students have achieved proficiency in language arts literacy on the New Jersey Assessment of Skills and Knowledge (NJ ASK) 3 shall provide an intensive early literacy program for preschool to grade three to ensure that all students achieve proficiency on State standards in accordance with the requirements of N.J.A.C. 6A:13-3.4(a).

High need school districts where less than eighty percent of total students have achieved proficiency in language arts literacy on the NJ ASK 8 shall implement an intensive literacy program for grades four through eight in accordance with the requirements of N.J.A.C. 6A:13-3.4(b).

High need school districts where less than eighty percent of total students have achieved proficiency in language arts literacy on the high school State assessment shall implement a language arts literacy program aligned with college preparatory English I, II, III, and IV for grades nine through twelve that incorporates the elements in N.J.A.C. 6A:13-3.4(b) with the exception of providing a double period of language arts literacy.

High need school districts in which less than eighty-five percent of total students have achieved proficiency in mathematics on the NJ ASK 4 shall implement a comprehensive program for mathematics education that prepares students in grades three through four for success in higher order mathematics including the components as outlined in N.J.A.C. 6A:13-3.5(b).

High need school districts where less than eighty percent of total students have not achieved proficiency in mathematics on the NJ ASK 8 shall implement a comprehensive program for mathematics education that prepares all students in grades five through eight for success in Algebra at the high school level and that incorporates the elements in N.J.A.C. 6A:13-3.5(b).

High need school districts where eighty percent or more of total students have not achieved proficiency in mathematics on the high school State assessment shall implement a comprehensive program for mathematics education for grades nine through twelve which incorporates the elements in N.J.A.C. 6A:13-3.5(b) and that is aligned to course expectations as required to meet graduation requirements.

2415 EVERY STUDENT SUCCEEDS ACT

The Every Student Succeeds Act (ESSA) is a reauthorization of the Elementary and Secondary Education Act (ESEA) of 1965 that provides Federal funds to help all New Jersey's school children achieve. The purpose of the ESSA is to ensure all students have equitable access to high-quality educational resources and opportunities and to close educational achievement gaps. The Board of Education elects to augment the instructional program of students by projects supported by Federal funds allocated under the ESSA and the district will comply with the requirements of all the programs authorized by the ESSA.

The district may be eligible for several grant programs funded through the ESSA, including, but not limited to, Title I through Title VII. Many of the Titles of the ESSA have several parts and subparts that provide a funding source for specific purposes.

Application Procedure

The district will submit an annual ESSA Consolidated Formula Subgrant Application to the New Jersey Department of Education (NJDOE). The school district's application shall include all information required by the NJDOE and the ESSA for the district to be considered for funding under the ESSA.

Covered Programs

Formula grants under the ESSA are non-competitive grants that school districts are eligible for based on the make-up of their student bodies. These formula grants for each Title are committed to different purposes and may be used to support different activities and programs.

Title I

The largest Federal program supporting elementary and secondary education is Title I. The ESSA strengthens Title I requirements for the State's assessments, accountability system, and support for school improvement. The law also requires minimum qualifications for teachers and paraprofessionals in Title I programs.

The school district must use the best available measure for identifying children from low-income families to: identify eligible school attendance areas, determine the ranking of each area, and determine allocations as identified in the Title I guidelines and regulations.

The school district will offer Title I services to eligible children enrolled in private elementary and secondary schools. The services and benefits will be equitable in comparison to services and benefits for participating public school children.

The school district will provide the New Jersey Department of Education assurances it will provide the maximum coordination between the Title I program, the regular school program, and services provided by other programs for specialized populations. The Title I program will consider the special needs of homeless children, migrant children, children with disabilities and limited English Language Learner (ELL) children. Title I funds will be reserved so that migrant children who are otherwise eligible to receive Title I services, even if they arrive during the school year, are served.

Type of Title I Program

The school district will offer a School-wide Title I program.

School-wide Program

High-poverty schools (a school with at least 40% poverty or any school below 40% poverty with a waiver issued by the New Jersey Department of Education) are eligible to adopt school-wide programs to raise the achievement of low-achieving students by improving instruction throughout the entire school, thus using Title I funds to serve all children in the school. A school-wide program must be established in accordance with the Title I guidelines and regulations and the New Jersey Department of Education.

New Jersey Department of Education Accountability System

The district will comply with the accountability system established by the New Jersey Department of Education and outlined in the New Jersey State Plan and approved by the United States Department of Education.

Fiscal Responsibility

The district will comply with the requirements as outlined in Policy 2415.02 Title I – Fiscal Responsibilities in accordance with the NJDOE and the ESSA.

Staff

The district will comply with the staff certification requirements of the ESSA and the NJDOE. In addition, the district will ensure all paraprofessionals meet the requirements as established by the ESSA and as outlined in Policy 4125 – Employment of Support Staff Members.

Parental Involvement

The district will comply with the requirements as outlined in Policy 2415.04 – Parental Involvement in accordance with the NJDOE and the ESSA.

Student Surveys, Analysis, and/or Evaluations

The Protection of Pupil Rights Amendment (PPRA) applies to school districts that receive Federal funding from the United States Department of Education. The district will comply with the requirements as outlined in Policy 2415.05 - Student Surveys, Analysis, and/or Evaluations in accordance with the PPRA.

Unsafe School Choice Option

In the event there is a school in the district designated as Persistently Dangerous in accordance with the Victims of Violent Criminal Offenses as outlined in the ESSA, the district will comply with the requirements of Policy 2415.06 – Unsafe School Choice Option in accordance with the NJDOE and the ESSA.

Property

Property acquired through Title I funds for use in public or private schools will be acquired in accordance with the Public School Contracts Law, will be held in title by the Board of Education, and will not be used for other purposes so long as it is required in the Title I program. Property no longer required for Title I purposes will be used for other, similarly funded projects or disposed of in accordance with State and Federal guidelines.

Capital Expenses

The Chief School Administrator will assure the district abides by New Jersey's Public Contracts Law; consults appropriate private school officials prior to making any decisions regarding capital expenses; ensure funds that are received to cover capital expenses provide equitable Title I services to private school students; ensure accounts for any capital funding is separately maintained; and assure lease purchase agreements are consistent with applicable statute and administrative code.

Post-Award Requirements

The school district will maintain all project records for five years following the completion of the activity for which the funds were used. The school district will prepare and submit all reports as required by the State Department of Education in a timely manner.

Supplement, Not Supplant

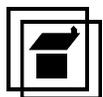

Grant funds provided under Federal programs, including the ESEA of 1965 as amended by the ESSA, shall supplement, not supplant the funds that would, in the absence of such Federal funds, be made available from State and local sources for the education of students participating in programs assisted under the ESEA of 1965 as amended by the ESSA.

Evaluation

The Chief School Administrator will evaluate the ESSA programs as required by the United States and the New Jersey Departments of Education.

Elementary and Secondary Education Act of 1965 (20 U.S.C. 2701 et seq.) as amended by the Every Student Succeeds Act.

2415.02 TITLE I – FISCAL RESPONSIBILITIES

The Board of Education will comply with the requirements of the Elementary and Secondary Education Act (ESEA) of 1965 (20 U.S.C. 2701 et seq.) as amended by the Every Student Succeeds Act (ESSA).

Maintenance of Effort

To be in compliance with the requirements of the ESEA as amended by the ESSA, the Board of Education will maintain either a combined fiscal effort per student or aggregate expenditures of State and local funds with respect to the provision of the free public education by the Local Education Agency (LEA) for the preceding fiscal year that is not less than ninety percent of the combined fiscal effort per student or the aggregate expenditures for the second preceding fiscal year.

Comparability with Multiple Schools

To be in compliance with the requirements of the ESEA as amended by the ESSA, the Board of Education directs the Chief School Administrator to assign teachers, administrators, and auxiliary personnel to the schools in such a way that the equivalence of personnel is ensured among schools. The school district will ensure that State and local funds are used to provide comparable services for Title I and non-Title I schools.

Comparability of Materials and Supplies

To be in compliance with the requirements of the ESEA as amended by the ESSA, the Board of Education directs the Chief School Administrator to distribute curriculum materials and instructional supplies to the schools in such a way that the equivalence of such material is ensured among schools.

Supplement, Not Supplant

Grant funds provided under Federal programs, including the ESEA as amended by the ESSA, shall supplement, not supplant the funds that would, in the absence of such Federal funds, be made available from State and local sources for the education of students participating in programs assisted under the ESEA as amended by the ESSA.

2415.04 TITLE I – DISTRICT-WIDE PARENTAL INVOLVEMENT

GENERAL EXPECTATIONS

The school district will put into operation programs, activities, and procedures for the involvement of parents in the school with Title I, Part A programs, consistent with Section 1118 of the Elementary and Secondary Education Act (ESEA). Those programs, activities, and procedures will be planned and operated with meaningful consultation with parents of participating children.

Consistent with Section 1118, the school district will work to ensure that the required school-level parental involvement policies meet the requirements of Section 1118(b) of the ESEA, and each include, as a component, a school-parent compact consistent with Section 1118(d) of the ESEA.

The school district will incorporate this District-Wide Parental Involvement Policy into its school district's plan developed under Section 1112 of the ESEA.

In carrying out the Title I, Part A parental involvement requirements, to the extent practicable, the school will provide full opportunities for the participation of parents with limited English proficiency, parents with disabilities, and parents of migratory children, including providing information and school reports required under Section 1111 of the ESEA in an understandable and uniform format, including alternative formats upon request, and to the extent practicable, in a language parents understand.

If the school district's plan for Title I, Part A, developed under Section 1112 of the ESEA, is not satisfactory to the parents of participating children, the school district will submit any parent comments with the plan when the school district submits the plan to the New Jersey Department of Education.

In the event the school district is required to reserve and spend at least one percent of the district's Title I, Part A allocation, the school district will involve the parents of children served in Title I, Part A schools in decisions about how these funds will be spent and will ensure that not less than ninety-five percent of the one percent reserved goes directly to the school.

The school district will be governed by the following statutory definition of parental involvement, and expects the Title I school will carry out programs, activities, and procedures in accordance with this definition:

Parental involvement means the participation of parents in regular, two-way, and meaningful communication involving student academic learning and other school activities, including ensuring-

1. That parents play an integral role in assisting their child's learning;
2. That parents are encouraged to be actively involved in their child's education at school;
3. That parents are full partners in their child's education and are included, as appropriate, in decision-making and on advisory committees to assist in the education of their child; and
4. The carrying out of other activities, such as those described in Section 1118 of the ESEA.

In the event the State of New Jersey or the New Jersey Department of Education has a Parental Information and Resource Center, the school district will inform parents and parental organizations of its purpose and existence.

DESCRIPTION OF HOW THE SCHOOL DISTRICT WILL IMPLEMENT REQUIRED DISTRICT-WIDE PARENTAL INVOLVEMENT POLICY COMPONENTS

Below is a description of how the district will implement or accomplish each of the following components outlined below (Section 1118(a)(2), ESEA):

1. The district will take the following actions to involve parents in the joint development of its district-wide parental involvement plan under Section 1112 of the ESEA:
 - a. Convene an annual meeting, at a convenient time, to which all parents of participating students shall be invited to attend.
 - b. Offer a flexible number of meetings, such as meetings in the morning or evening, with child care if possible.

2. The district will take the following actions to involve parents in the process of school review and improvement under Section 1116 of the ESEA:
 - a. Parents will be informed by Title I school Principal of a meeting to develop the school-parent-student compact.
3. The district will provide the following necessary coordination, technical assistance, and other support to assist the Title I, Part A school in planning and implementing effective parental involvement activities to improve student academic achievement and school performance:
 - a. The school will host an annual parent information session.
4. The school district will coordinate and integrate parental involvement strategies in Part A with parental involvement strategies under the following other programs, by:
 - a. Attempt to coordinate parent involvement programs with all intervention programs.
 - b. Parents may be involved in planning for professional development.
5. The school district will take the following actions to conduct, with the involvement of parents, an annual evaluation of the content and effectiveness of this Parental Involvement Policy in improving the quality of the Title I, Part A school. The evaluation will include identifying barriers to greater participation by parents in parental involvement activities (with particular attention to parents who are economically disadvantaged, are disabled, have limited English proficiency, have limited literacy, or are of any racial or ethnic minority background). The school district will use the findings of the evaluation about its Parental Involvement Policy and activities to design strategies for more effective parental involvement, and to revise, if necessary (and with the involvement of parents) its parental involvement policies.
 - a. May provide necessary literacy training from Title I funds.
 - b. May train parents to enhance the involvement of parents.

2415.05 STUDENT SURVEYS, ANALYSIS, AND/OR EVALUATIONS

The Protection of Pupil Rights Amendment (PPRA) (20 U.S.C. §1232h; 34 CFR Part 98) applies to school districts that receive funding from the United States Department of Education.

Consent

PPRA requires written consent from parents of unemancipated minor students and students who are eighteen years old or emancipated minor students before such students are required to participate in a survey, analysis, or evaluation funded in whole or in part by a program of the United States Department of Education that concerns one or more of the following areas referred to as “protected information surveys”:

1. Political affiliations or beliefs of the student or student’s parent;
2. Mental or psychological problems of the student or student’s family;
3. Sex behavior or attitudes;
4. Illegal, anti-social, self-incriminating or demeaning behavior;
5. Critical appraisals of others with whom respondents have close family relationships;
6. Legally recognized privileged or analogous relationships, such as with lawyers, physicians, and ministers;
7. Religious practices, affiliations, or beliefs of the student or parents;
8. Income (other than that required by law to determine eligibility for participation in a program or for receiving financial assistance under such program); or
9. Social security number.

This consent requirement also applies to the collection, disclosure or use of student information for marketing purposes, referred to as “marketing surveys”, and for certain physical examinations and screenings.

“Opt a Student Out” Notice

The parents of unemancipated minor students and students who are eighteen years old or emancipated minor students will be provided an opportunity to opt out of participating in:

1. The collection, disclosure, or use of personal information obtained from students for marketing, to sell, or otherwise distribute information to others;
2. The administration of any other “protected information survey” not funded in whole or in part by the United States Department of Education; and
3. Any non-emergency, invasive physical examination required as a condition of attendance, administered by the school district or its agents, and not necessary to protect the immediate health and safety of a student, except for hearing, vision, scoliosis screenings, or any physical examination or screening permitted or required under State law.

Inspection

The parents of unemancipated minor students and students who are eighteen years old or emancipated minor students, upon request and before administration or use, have the right to inspect:

1. Protected information surveys of students;
2. Instruments used to collect personal information from students for any of the above marketing, sales, or other distribution purposes; and
3. Instructional material used as part of the educational curriculum.

The Chief School Administrator shall be responsible for obtaining the consent, annual direct notification to parents and eligible students at the start of each school year and after any substantive changes of the “opt a student out” rights, and the inspection rights provisions of PPRA and this Policy. The “opt a student out” notice shall include any specific or approximate dates of the activities eligible for a student to “opt out.”

PPRA Consent/Opt Out Violations

Parents or students who believe their rights under PPRA may have been violated may file a complaint with United States Department of Education.

Elementary and Secondary Education Act of 1965 (20 U.S.C. 2701 et seq.) as amended by the Every Student Succeeds Act.

Adopted: 29 April 2021

2415.06 UNSAFE SCHOOL CHOICE OPTION

The New Jersey Department of Education (NJDOE) is required to establish an Unsafe School Choice Option (USCO) Policy per the Elementary and Secondary Act (ESEA) of 1965, as reauthorized under the Federal Every Student Succeeds Act of 2015 (ESSA). The USCO Policy requires that students who attend a persistently dangerous public elementary or secondary school as determined by the NJDOE, or become victims of a violent criminal offense while in or on school grounds of a public school that they attend, be allowed to attend a safe public school within the district. The USCO provision under the ESSA contains two provisions that apply to school districts that receive funds under ESSA: Provision I - Persistently Dangerous Schools and Provision II - Victims of Violent Criminal Offenses.

Effective the beginning of each school year, school districts receiving ESSA funds must be prepared to complete the transfer of students who choose to exercise Provision I and Provision II of this USCO Policy. Compliance with the Policy is a condition of receiving funds under any and all titles under ESSA. The Chief School Administrator is required to certify compliance with this USCO Policy to the NJDOE in the application for ESSA funds.

USCO Policy Provision I - Persistently Dangerous Schools (PDS)

1. Criteria for Determining PDS.

A persistently dangerous school is a public elementary or secondary school building (except for Regional Day Schools, Educational Services Commissions and Special Services School Districts) that meets the objective criteria determined by the NJDOE for three consecutive years and is part of a school district that receives funds under ESSA. The NJDOE will use the most current available data from the Student Safety Data System (SSDS) to identify PDS on or before July 31 of each year.

2. Procedures and Guidelines for Schools Determined to be Persistently Dangerous.

A school district will be notified by the NJDOE on or before July 31 of each year if a school(s) in the school district has been identified as a PDS. Once the district receives notification a school is identified as persistently dangerous, the district must inform all parents of enrolled students in the school of the designation within fifteen calendar days of the date of the notice and offer them the option for their children to transfer to a safe public school within the district by the beginning of the respective school year. The district must complete all transfers by the beginning of the school year following the July notification.

Students are not required to accept the transfer option, but they must be afforded the opportunity to do so. Parental notice regarding the status of the school and the offer to transfer students should be made simultaneously. Parents of enrolled students must be notified of the persistently dangerous designation whether or not there is another school within the district for the transferring students.

To the extent possible, the district will allow transferring students to transfer to schools that have not been identified as low performing, under the State's ESSA accountability system. When a transfer school is not available within the school district, the district may seek arrangements for students to transfer to the nearest charter school or neighboring district; however, this is not required. The district may take into account the needs and preferences of the affected students and parents.

3. Corrective Action Plan for a School Identified as Persistently Dangerous.

If a school in the district is identified by the NJDOE as persistently dangerous, the district will submit to the NJDOE documentation of compliance with the parent notification requirement and actions taken to complete the transfer arrangements for all students exercising the option by the first day of the school year. Additionally, the district is required to develop and submit for approval a corrective action plan to the NJDOE on or before September 30 of the same year, which will apply to the respective school year. The corrective action plan, which must be completed in the format provided by the NJDOE, will describe how the school will reduce the number of incidents of violence as determined by the SSDS. The NJDOE will provide the school with guidance for its corrective action plan, as well as monitor the school district's timely completion of the approved plan.

In the spring of each following year, the NJDOE will re-evaluate the status of a school identified as persistently dangerous. The NJDOE will review the school's progress towards completing its corrective action plan and compare the current year's incidents of violence, as reported on the SSDS, to the criteria for determining PDS. A school identified as maintaining the persistently dangerous designation will be notified by the NJDOE on or before July 31 of the respective year and will be required to submit for approval a revised corrective action plan by September 30 of that year, which will apply to the respective school year. The school district must inform all parents of enrolled students in the school of the designation within fifteen calendar days of the date of notice and offer them the option for their children to transfer to a safe public school by the beginning of the respective school year in accordance with 2. above.

A school no longer designated persistently dangerous will be notified on or before July 31 of the respective year. The persistently dangerous designation will be removed after one or more years contingent upon successful fulfillment of the criteria for removal, as determined by evidence of the school's progress toward successfully completing the approved corrective action plan, and evidence of incidents that no longer meet the criteria for determining PDS, described above, for one school year, the year in which the corrective action plan was in effect.

4. Procedures and Guidelines for Early Warning of Schools.

When a school meets the criteria set forth in this Policy for one year, the district will be informed of the types of offenses reported that have led to an early notification. This notification, on or before August 15 of each year, will be informational only. A school that no longer meets the criteria for PDS for one year will no longer be considered in early notification status. A school that meets the criteria for two consecutive years will move into early warning status outlined below.

If a school meets the criteria set forth in this Policy for two consecutive years, the district will be notified of the pattern of offenses on or before August 15 of each year. If notified, the district will develop and submit for approval a school safety plan to the NJDOE on or before September 30 of the same year, which will apply to the respective school year. The school safety plan, which must be completed in the format provided by the NJDOE, will describe how the school will reduce the number of incidents of violence as determined by the SSDS. The NJDOE will provide an early warning school with guidance for its school safety plan, as well as monitor the school's timely completion of the approved plan. A school receiving an "early warning" notice is not required to provide the transfer option to students.

In the spring of each following year, the NJDOE will reevaluate the school's progress towards completing its school safety plan and compare the current year's incidents of violence, as reported on the SSDS, to the criteria for determining PDS. The school will be notified of its status on or before July 31 of the respective year.

A school that no longer meets the criteria for PDS for one school year, the year in which the school safety plan was in effect, will no longer be required to submit a school safety plan.

A school that meets the criteria for PDS for a third consecutive year will be designated persistently dangerous and will be required to submit for approval a corrective action plan on or before September 30 of that year, which will apply to the respective school year and provide the transfer option to students in the school designated as persistently dangerous.

5. Schools Not Receiving ESSA Funds, but Meeting the Criteria for PDS.

School buildings and districts that are not part of a local education agency (LEA) that receives Federal funds under ESSA, but meet any one of the criteria for PDS will be contacted by the NJDOE and be required to develop and submit for approval a school safety plan on or before September 30 of the respective year. The school safety plan must be completed in the format provided by the NJDOE and describe how the school will reduce the number of incidents of violence as determined by the SSDS. The NJDOE will provide the school with guidance for its school safety plan, as well as monitor the school's timely completion of the approved plan.

USCO Policy Provision II – Victims of Violent Criminal Offenses

The Unsafe School Choice Option provision under the ESSA requires a student who becomes a victim of a violent criminal offense, as determined by State law, while in or on the grounds of a public elementary or secondary school that the student attends, be allowed to attend a safe public elementary or secondary school within the district, including a public charter school.

The individual victim provision of this Policy attempts to fulfill the requirement for the school district to provide relief to students who have been victimized, while providing a school with a practical means for making determinations on incidents of victimization that are within the purview of the school district. The individual victim section of this Policy has been crafted to enable school staff to make reasonable determinations and actions regarding this Policy. The Chief School Administrator will consult with the Board attorney and communicate with designated local and/or county law enforcement authorities, per the provisions of the *Uniform State Memorandum of Agreement Between Education and Law Enforcement Officials and N.J.A.C. 6A:16-6.2(b)13*, on questions and issues that arise in the implementation of the individual victims of violent criminal offenses section of this Policy.

1. Criteria for Determining Victims of Violent Criminal Offenses

The following criteria must be used to determine when an enrolled student has become a victim of a violent criminal offense while in or on the grounds of a public elementary or secondary school that the student attends. These criteria only apply to a student who has become a victim of one or more of the violent criminal offenses enumerated below:

A student is considered a victim of a violent criminal offense when:

- a. A referral has been made to law enforcement officials for suspicion that one of the violent criminal offenses enumerated below has occurred; and
- b. One or more of the following applies:
 - (1) Law enforcement officials have filed formal charges against the offender(s) for commission of the violent crime; or
 - (2) The offender(s) has received sanctions in accordance with the Board of Education's Code of Student Conduct; or
 - (3) The offender(s) either has not been identified or is not an enrolled student(s), but it is clear that the student (victim) has become a victim of a violent criminal offense based on objective indicators such as physical evidence, eyewitness testimony, and/or circumstantial evidence; or
 - (4) The pre-existence of a restraining order against the offender(s).

2. Procedures and Guidelines

Effective the first day of each school year, the district must be prepared to begin the transfer of any student who chooses to exercise the individual choice option provision. The district must offer, within fourteen calendar days of the incident, an opportunity to transfer to a safe public school within the district to any student who has become a victim of a violent criminal offense while in or on the grounds of a public school that the student attends. While the student must be offered the opportunity to transfer, the student may elect to remain at the school.

To the extent possible, the district will allow any transferring student to transfer to a school that has not been identified as low performing, under the State's ESSA accountability system. In addition, when a transfer school is not available within the district, the district may seek arrangements for a student to transfer to the nearest charter school or neighboring district; however, this is not required. The district may take into account the needs and preferences of the affected student and his or her parent(s). Transfers must occur within thirty days of the determination that the student was a victim of a violent criminal offense.

3. Violent Criminal Offenses

The violent criminal offenses under New Jersey statutes that apply to the individual victim provision of this Policy are identified and explained below. The offenses apply to completed offenses, as well as attempts to commit the offenses. The offenses and attempts to commit the offenses apply only when they occur in or on the school grounds, as defined in N.J.A.C. 6A:16-1.3, of the school that the student attends. The offenses apply whether they occur wholly or in part in or on the grounds of the school that the student attends. The offenses apply only to acts or attempts that are directed at a person (victim) or a group of specified individuals (victims), rather than acts that indiscriminately affect the entire school population or non-specified individuals or groups.

4. Applicable Violent Criminal Offenses

Below is a description of each applicable violent criminal offense that is based upon New Jersey statutes and references to statutory citations that provide complete explanations of each designated offense. The descriptions provided below are not intended to be a complete explanation of each offense or a substitute for the actual provisions of the authorizing statutes. Instead, the descriptions are provided as an aid in facilitating understanding of the general intent and practical applications of the violent criminal offenses that pertain to this Policy.

- a. Homicide [N.J.S.A. 2C:11-2] - A student is a victim of a homicide when he or she is the child, sibling or other relative of a decedent, resulting from someone purposely, knowingly or recklessly causing the death of the student's parent, sibling, or relative in or on school grounds.
- b. Assault [N.J.S.A. 2C:12-1(A)(1-3) and 2C:12-1(B)(1-4)] - A person is a victim of an assault when the actor: purposely, knowingly, or recklessly causes bodily injury to the victim; negligently, recklessly, knowingly, or purposely causes bodily injury to the victim with a deadly weapon; attempts by physical menace to put the victim in fear of imminent serious bodily injury; or knowingly points a firearm at or in the direction of the victim, whether or not the actor believes it to be loaded.
- c. Sexual Assault [N.J.S.A. 2C:14-2] - A student is a victim of a sexual assault when the student is a victim of an act of sexual contact when the victim is less than thirteen years old and the actor is at least four years older than the victim, or the student is a victim of an act of sexual penetration under any of the following circumstances:

- (1) The victim is less than thirteen years old.
 - (2) The victim is at least thirteen, but less than sixteen years old; and the actor is at least four years older than the victim.
 - (3) The victim is at least sixteen years old, but less than eighteen years old; and the actor has supervisory or disciplinary power over the victim.
 - (4) The actor uses physical force or coercion.
 - (5) The victim is one whom the actor knew or should have known was physically helpless, mentally defective, or mentally incapacitated.
- d. Bias Intimidation [N.J.S.A. 2C:16-1(A)] - A person is a victim of the crime of bias intimidation when an actor commits, attempts to commit, conspires with another to commit or threatens the immediate commission of an offense specified in Chapters 11 through 18 of Title 2C of the New Jersey Statutes; N.J.S.A. 2C:33-4; N.J.S.A. 2C:39-3; N.J.S.A. 2C:39-4 or N.J.S.A. 2C:39-5 in the following circumstances:
- (1) With a purpose to intimidate a victim or a group of specified victims because of race, color, religion, gender, handicap, sexual orientation, or ethnicity; or
 - (2) Knowing that the conduct constituting the offense would cause a victim or a group of specified victims to be intimidated because of race, color, religion, gender, handicap, sexual orientation, or ethnicity; or
 - (3) Under circumstances that caused any victim of the underlying offense to be intimidated and the victim, considering the manner in which the offense was committed, reasonably believed either that:
 - (a) The offense was committed with a purpose to intimidate the victim or any person or entity in whose welfare the victim is interested because of race, color, religion, gender, handicap, sexual orientation, or ethnicity; or

- (b) The victim or the victim's property was selected to be the target of the offense because of race, color, religion, gender, handicap, sexual orientation, or ethnicity.

- e. Terroristic Threat [N.J.S.A. 2C:12-3(A) and 2C:12-3(B)] - A person is a victim of a terroristic threat when the actor threatens to commit one of the violent criminal offenses enumerated under this Policy against the victim with the purpose to put the student in imminent fear of one of the violent crimes enumerated in this Policy under circumstances reasonably causing the victim to believe the immediacy of the threat and the likelihood that it will be carried out. The definition of terroristic threat applies to N.J.S.A. 2C:12-3(a) insofar as the threat was directed at a person (victim) or a group of specified individuals (victims).

- f. Robbery [N.J.S.A. 2C:15-1] - A person is a victim of a robbery when the actor, in the course of committing a theft, inflicts bodily injury; or uses force upon the victim; threatens the victim with or purposely puts the victim in fear of immediate bodily injury.

- h. Arson [N.J.S.A. 2C:17-1] - A person is a victim of arson when the actor purposely or knowingly starts a fire or causes an explosion in or on the grounds of a school whereby the victim or group of specified victims are in danger of death or bodily injury; or with the purpose of destroying or damaging the victim's or group of specified victim's property that is in the school or on school grounds.

Miscellaneous Provisions of USCO

1. Transfer Time Period – PDS

The transfer will be temporary and will be in effect as long as the student's original school is identified as persistently dangerous.

2. Charter School Transfer Option

While ESSA permits affected students to be afforded the opportunity to attend a public charter school, in addition to a safe public elementary school or secondary school within the school district, the application of this provision in New Jersey is limited. Transfers to a charter school can only occur as a part of the charter school's "equal opportunity" selection process and among charter schools administered under the same managing authority (i.e., charter schools within the charter school district).

Since charter schools in New Jersey are considered public LEA's, pursuant to N.J.S.A. 18A:36A-3, operated independently of a local board of education, transfers may only take place among charter schools within the LEA. Therefore, students may be permitted to transfer to another charter school that is administered under the same managing authority of the charter school, but are not permitted to transfer to a school in the local public school district administered by a local board of education.

However, pursuant to N.J.S.A. 18A:36A-7, a charter school must be open to all students on a space available basis and may not discriminate in its admission policies or practices (although it may establish reasonable criteria to evaluate prospective students), and in accordance with N.J.S.A. 18A:36A-8, if there are more applications to enroll in the charter school than there are spaces available, the charter school must select students to attend using a random selection process for enrollment.

3. Funding Sources for USCO

The USCO statute does not authorize resources specifically to help cover USCO costs associated with transferring a student from a PDS. However, under certain circumstances Federal funds may be used. For example, ESEA Title IV, Part A [Section 4115(b)(2)(E)(v)] may be used to establish safe zones of passage to and

from school to ensure that students travel safely on their way to school and on their way home. In addition, ESEA Title IV, Part A [Sections 5121(8) and 5131(12) and (25)] funds may be used to help cover costs such as tuition or transportation related to the USCO or expansion of public school choice.

4. Special Education Students

The district will provide transferred special education students with the program required by the student's Individualized Education Program (IEP).

5. Transfer Schools

In the event there is not another school within the school district for a transferring student, the district is not required to transfer the student to a school outside the school district.

The district will use the school choice option as one response to incidents of victimization. Additionally, the district will develop and implement appropriate strategies for addressing the circumstances that contribute to or support victimization, as well as consistently and proactively manage individuals who have victimized students. The district will promote the importance of school safety and respond to the needs of students and staff. Pursuant to the law, the district will provide an opportunity for students, parents and school district and law enforcement personnel to discuss methods for keeping schools safe from violence; to create school safety plans; and to recognize students in need of help. The district will organize activities to prevent school violence, including, but not limited to, age-appropriate opportunities for student discussion on conflict resolution, issues of student diversity and tolerance. Law enforcement personnel will be invited to join members of the teaching staff in the discussions. Programs shall also be provided for school district employees that are designated to help school district employees recognize warning signs of school violence and to instruct school district employees on recommended conduct during an incident of school violence.

In accordance with the provisions of N.J.S.A. 18A:17-46, two times each school year, between September 1 and January 1 and between January 1 and June 30, at a public hearing, the Chief School Administrator shall report to the Board of Education all acts of violence; vandalism; and harassment, intimidation, and bullying which occurred during the previous reporting period.

Title VIII, Part F, Subpart 2, SEC. 8532
Every Student Succeeds Act (ESSA) of 2015

Adopted: 29 April 2021

2415.20 EVERY STUDENT SUCCEEDS ACT COMPLAINTS

The Every Student Succeeds Act (ESSA) reauthorized the Elementary and Secondary Education Act of 1965 (ESEA). A Board of Education shall adopt a policy and written procedures for resolving a written complaint presented by an individual or organization that alleges violations in the administration of the ESSA programs as identified by the New Jersey Department of Education (NJDOE).

Policy and Regulation 2415.20 set forth the requirements for resolving complaints presented by any individual or organization that:

1. A school, school district, other agency authorized by the school district, or by the NJDOE violated the administration of education programs authorized by the ESEA as amended by the ESSA; and/or
2. The NJDOE violated the administration of education programs required by the ESEA as amended by the ESSA.

Complaints regarding nonpublic school officials alleging school district noncompliance must pertain to at least one of the following three specific reasons:

1. The school district did not engage in consultation that was meaningful and timely;
2. The school district did not give due consideration to the views of the nonpublic school officials; or
3. The school district did not make a decision that treats the nonpublic school or its students equitable and in accordance with ESEA Section 1117 or Section 8501.

A complaint shall be written and must identify, at a minimum, the alleged ESEA violation; a description of previous steps taken to resolve the matter; the facts supporting the alleged violation as understood by the complainant at the time of submission; and any supporting documentation.

A complaint alleging a school in the district, school district, or other agency authorized by the school district, or the NJDOE violated the administration of a program must be submitted to the Chief School Administrator. The Chief School Administrator shall be responsible to coordinate the investigation of the complaint. The Chief School Administrator shall submit a written report regarding the outcome of the investigation to the complainant.

If the complainant is not satisfied with the outcome of the investigation by the school district, the complainant must submit a written complaint to the Executive County Superintendent for the county where the school district is located. This process does not apply to alleged violations concerning participation of nonpublic school children.

The Executive County Superintendent will coordinate the investigation of a complaint. When the investigation is complete, the Executive County Superintendent will notify the complainant in writing regarding the outcome of the investigation. If it is determined a violation has occurred, the Executive County Superintendent will identify and impose the appropriate consequences or corrective action in accordance with statute and/or regulation to resolve the complaint. If the complainant is not satisfied with the determination that is made by the Executive County Superintendent, the complainant may submit a written request for review of that determination to the Assistant Commissioner.

A complaint alleging the NJDOE violated the administration of a program must be submitted to the designated New Jersey Department of Education Assistant Commissioner. The appropriate NJDOE Office assigned by the Assistant Commissioner will coordinate the investigation of a complaint. When the investigation is complete, the Assistant Commissioner will notify the complainant in writing regarding the outcome of the investigation. If it is determined a violation has occurred, the Assistant Commissioner will identify and impose the appropriate consequences or corrective actions as required by statute and/or regulation to resolve the complaint.

If a complainant does not agree with the NJDOE's decision, the complainant may appeal to the Secretary of the United States Department of Education.

To initiate a complaint regarding participation of nonpublic school children, a complainant must submit a written complaint to the NJDOE Nonpublic Ombudsman in accordance with NJDOE procedures.

New Jersey Department of Education Elementary and Secondary Education Act (ESEA)
Complaint Policy and Procedure

Adopted: 29 April 2021

2415.30 TITLE I – EDUCATIONAL STABILITY FOR CHILDREN IN FOSTER CARE

The Federal Every Student Succeeds Act (ESSA), which reauthorized the Elementary and Secondary Education Act (ESEA), initiated protections for children in foster care that further enhanced the requirements of the Fostering Connections to Success and Increasing Adoptions Act of 2008 (Fostering Connections Act). These provisions require school districts to work with child welfare agencies to ensure the educational stability of children in foster care. New Jersey statutes support and implement Federal legislation and require New Jersey’s child welfare agencies and school districts to collaborate and to keep children placed in foster care in the same school when their living placements change if remaining in that school is in the child’s best interest. The educational stability of children in foster care is the joint responsibility of both the educational and child welfare systems.

The Chief School Administrator shall be designated as the Board of Education’s point of contact person for all matters related to the educational stability for children in foster care. The point of contact person for the school district shall not be the same person designated as the school district liaison for the education of homeless children.

For the purpose of this Policy, “child welfare agency” shall be the New Jersey Department of Children and Families.

For the purpose of this Policy, “foster care” means twenty-four hour substitute care for children placed away from their parents and for whom the child welfare agency has placement and care responsibility. This includes, but is not limited to, placements in foster family homes, foster homes of relatives, group homes, emergency shelters, residential facilities, child care institutions, and pre-adoptive homes.

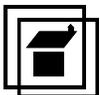

For the purpose of this Policy, “school of origin” is the school district in which the child is enrolled at the time of placement in foster care or the school district of residence as per N.J.S.A. 30:4C-26 and N.J.S.A. 18A:7B-12.

A child in foster care shall remain in his/her school of origin if it is determined to be in the best interest of the child for the duration of time in foster care.

If a student attending the school district in accordance with the provisions of N.J.S.A. 18A:38-1 et seq. is placed in foster care, the school district contact person will collaborate with child welfare agencies to determine whether it is in the child’s best interest to remain in the school district taking into consideration all factors relating to the child’s best interest. These factors shall include the appropriateness of the current educational setting and proximity of placement (ESEA Section 1111(g)(1)(E)(i)). These factors may include, but are not limited to:

1. Preferences of the child;
2. Preferences of the child's parent(s) or educational decision maker(s);
3. The child's attachment to the school, including meaningful relationships with staff and peers;
4. The proximity of the resource family home to the child's present school;
5. The age and grade level of the child as it relates to the other best-interest factors;
6. The needs of the child, including social adjustment and well-being;
7. The child's performance, continuity of education, and engagement in the school the child presently attends;
8. The child's special education programming if the child is classified;
9. The point of time in the school year;
10. The child's permanency goal and likelihood of reunification;
11. The anticipated duration of the placement;
12. Placement of the child's sibling(s);
13. Influence of the school climate on the child, including safety;
14. The availability and quality of the services in the school to meet the child's educational and socioemotional needs;
15. History of school transfers and how they have impacted the child;
16. How the length of the commute would impact the child, based on the child's developmental stage;
17. Whether the child is a student with a disability under the Individuals with Disabilities Act (IDEA) who is receiving special education and related services or a student with a disability under Section 504 who is receiving special education or related aids and services and, if so, the availability of those required services in a school other than the school of origin; and

18. Whether the child is an English language learner (ELL) and is receiving language services, and, if so, the availability of those required services in a school other than the school of origin, consistent with Title VI and the Equal Educational Opportunities Act of 1974 (EEOA).

The school district's point of contact person will discuss these factors and will make every effort to gather meaningful input and participation from the relevant parties, including appropriate school personnel, in the best-interest determination.

Eligible students with disabilities retain their right to receive a free appropriate public education in the least restrictive environment. When making a best-interest determination regarding the educational placement of a student with a disability under IDEA and Section 504, the Board must ensure that all required special education and related services are provided in the least restrictive placement where the child's unique needs, as described in the student's Individualized Education Program (IEP) or Section 504 Plan, can be met. The school district will identify and assess all potential ELL students and provide all ELL students, including ELL students in foster care, with a language assistance program that is educationally sound and proven successful. When a best-interest determination is made for an ELL student in foster care, the Board of Education will comply with its obligations under Title VI and the EEOA.

To the extent feasible, a child shall remain in his/her school of origin until a final best-interest determination is made. The child welfare agency will notify the school district of origin of the child's school placement after collaboration with the Board of Education's point of contact person and after the child's best-interest determination has been made. If a change of school is recommended by the child welfare agency, the new school shall immediately contact the school of origin to obtain relevant academic and other records of the foster care child. The financial responsibility for the payment of tuition for a foster care child placed outside the school district of origin and attending school outside the school district of origin shall be determined by the Commissioner of Education in accordance with N.J.S.A. 18A:7B-12 – Determination of District of Residence.

A foster care child who has been placed in this district and exits foster care during the school year will not be permitted to continue in this school district for the remainder of the school year.

In the event there is a disagreement regarding school placement for a child in foster care, the school district will comply with the legal requirements for resolving the dispute. A parent can appeal a best-interest determination whenever the child changes schools.

Children placed in foster care outside the school district of origin, attending a school in that district, will be provided transportation to and from school in accordance with N.J.A.C. 6A:27-6.1 et seq. and the Transportation Policy of that district. The district of origin is financially responsible for transportation costs to and from school.

Children placed in foster care outside the school district of origin, but remaining in a school within the school district of origin, shall receive transportation to and from school on a “cost-efficient” manner and in accordance with Section 475(4)(A) of the Social Security Act for the duration of the time the child is in foster care. The district of origin is financially responsible for transportation costs to and from school.

The cost of transportation shall not be considered when determining the best interest of the child.

Section 475(4)(A) of the Social Security Act provides guidance on “cost-effective” transportation as it relates to the cost of reasonable travel for foster care children placed outside the school district of origin to their school of origin indicating: the child may be dropped off at a bus stop just within the school district of origin to be transported to a school in the district of origin; the school district may offer a public transportation option; the foster care parents or other families may be willing to drive the child to school in the school district of origin; the school district may utilize pre-existing bus routes or stops close to the out-of-district foster care placement that cross school district boundaries; or the foster care child may be eligible for transportation under other Federal or State requirements.

In the event there is a disagreement regarding transportation for a child in foster care, the school district will comply with the New Jersey Department of Education requirements for resolving the dispute. The Board of Education shall provide or arrange for adequate and appropriate transportation for foster care children while any disputes are being resolved.

In all cases regarding student data and records, the Board of Education will comply with all statutory requirements to protect student privacy, including Family Education Rights and Privacy Act (FERPA), and all other privacy requirements under Federal laws, State statutes, and administrative codes.

N.J.S.A. 18A:35-4.31

Adopted: 29 April 2021

2423 BILINGUAL AND ESL EDUCATION

The Board of Education will provide programs of bilingual education, English as a second language (ESL), and English language services for English language learners (ELLs) as required by law and rules of the State Board of Education. ELLs are those students whose native language is other than English and who have varying degrees of English language proficiency in any one of the domains of speaking, reading, writing, or listening and is synonymous with limited English speaking ability pursuant to N.J.S.A. 18:35-15 to 26.

Identification of ELLs

The Board will conduct a screening process to determine the native language of each ELL at the time of enrollment in the school district. A census shall be maintained of all identified students whose native language is other than English. The English language proficiency of each student whose native language is not English shall be determined by a screening process that includes the administration of a New Jersey Department of Education-approved English language proficiency test, an assessment of the student's level of reading in English, a review of the student's previous academic performance including their performance on standardized tests in English, and a review of the input of teaching staff members responsible for the educational program for ELLs.

Program Implementation

The district shall provide the following programs:

1. An English language services program to improve the English language proficiency of ELLs whenever there are at least one, but fewer than ten ELLs enrolled in the school district. English language services shall be provided in addition to the regular school program;
2. An ESL program that provides at least one period of ESL instruction based on student language proficiency whenever there are ten or more ELLs enrolled in the school district; and
3. A bilingual education program whenever there are twenty or more ELLs in any one-language classification enrolled in the school district pursuant to N.J.S.A. 18A:35-18. Where the age range, grade span, and/or geographical location of eligible students makes a full-time bilingual program impractical, the Board may annually offer an instructional program alternative, provided a waiver for the alternative program has been requested and approval has been granted by the Department of Education. The Board may establish a program in bilingual education for any language classification with fewer than twenty students.

All teachers in these programs shall be appropriately certified in accordance with the requirements as outlined in N.J.A.C. 6A:15-1.9. Every student participating in a bilingual, ESL, or English language services program shall be entitled to continue such participation for a period of three years pursuant to N.J.S.A. 18A:35-19.

Bilingual, English as a Second Language, and English Language Services Program Enrollment, Assessment, Exit, and Re-entry

Students enrolled in a bilingual, ESL, or English language services program shall be assessed annually using a New Jersey Department of Education-approved English language proficiency test to determine their progress in achieving English language proficiency goals and readiness for exiting the program. ELLs enrolled in a bilingual, ESL, or English language services program shall be placed in a monolingual English program when they have demonstrated readiness to function successfully in the English-only program. The process to determine the readiness or inability of the individual student to function successfully in the English-only program shall be initiated by the student's level of English proficiency as measured by a New Jersey Department of Education-established standard on an English language proficiency test. The readiness of the student shall be further assessed on the basis of multiple indicators that shall include, at a minimum: classroom performance; the student's reading level in English; the judgment of the teaching staff member or members responsible for the educational program of the student; and performance on achievement tests in English.

In accordance with provisions of N.J.S.A. 18A:35-22.1, a parent may remove a student who is enrolled in a bilingual education program at any time; except that during the first three years of a student's participation in a bilingual education program, the parent may only remove the student at the end of each school year. If during the first three years of a student's participation in a bilingual education program, a parent wishes to remove the student prior to the end of each school year, the removal must be approved by the Executive County Superintendent of Schools. The parent may appeal the Executive County Superintendent's decision to the Commissioner of Education.

Newly exited students who are not progressing in the mainstream English program may be considered for re-entry to bilingual and ESL programs in accordance with the provisions of N.J.A.C. 6A:15-1.10(e)1 through (e)5.

When the review process for exiting a student from a bilingual, ESL, or English language services program has been completed, the student's parent shall be informed by mail of the placement determination. A parent or teaching staff member who disagrees with the proposed placement may appeal the decision in writing to the Chief School Administrator or designee,

who will provide a written explanation for the decision within seven working days. The complainant may appeal this decision in writing to the Board within seven calendar days of receiving the Chief School Administrator's or designee's written explanation of the decision. The Board will review the appeal and respond in writing to the parent within forty-five calendar days of the Board's receipt of the parent's written appeal to the Board. A complainant not satisfied with the Board's determination of the appeal may appeal to the Commissioner of Education.

Parental Involvement

The parents of ELLs will be notified in accordance with the provisions of N.J.A.C. 6A:15-1.13 that their child has been identified as eligible for enrollment in a bilingual, ESL, or English language services program. Notice shall be in writing and in the language in which the parent(s) possesses a primary speaking ability, and in English. The notice must also include a statement that the parents have the option of declining their child's enrollment in a bilingual program, and shall be given an opportunity to do so if they choose.

The district will notify the parents of ELLs by mail within thirty days of the child's identification.

Parents shall receive progress reports of students enrolled in bilingual, ESL, or English language services programs in the same manner and frequency as progress reports are sent to parents of other students enrolled in the district.

The Chief School Administrator or designee will provide for the maximum practical involvement of parent(s) of ELLs in the development and review of program objectives and dissemination of information to and from the district Boards of Education and communities served by the bilingual, ESL, or English language services education programs. A school district that implements a bilingual education program shall establish a parent advisory committee on bilingual education of which the majority membership will be parents of ELLs.

Program Plan

The Chief School Administrator shall prepare and submit a plan for a bilingual, ESL, or English language services program every three years to the Board and the New Jersey Department of Education for approval in accordance with the provisions of N.J.A.C. 6A:15-1.6.

The school district central office staff shall prepare data on comparative performance for the school and make them available to the school. This analysis shall include the following comparisons using State assessment data:

1. Each grade level across the school;
2. The school;
3. Comparable districts by district factor groups; and
4. Data with State averages.

Secondary Education Initiatives

The school district shall develop a plan in 2008-2009 for implementing the secondary education initiatives specified in N.J.A.C. 6A:13-2.2(c) through (e) by the 2009-2010 school year, except that secondary school districts previously subject to N.J.A.C. 6A:10 and 6A:10A shall immediately comply with the secondary education initiatives specified in N.J.A.C. 6A:13-2.2(c) through (e).

The school districts shall:

 - a. Small learning communities in free-standing facilities or within larger facilities;
 - b. Student support systems where students are assigned an adult mentor or team of adults who know(s) them and can support student efforts in achieving goals and solving problems;
 - c. Academies with a career focus;
 - d. Multi-grade academies where students at various grade levels may remain with a core group of teachers for multiple years in an academy-type format which may be organized around a particular theme and involve interdisciplinary teaming; or
 - e. Other practices for personalizing learning environments that strengthen relationships among students, teachers, staff members, families, and the larger community.

The school district shall implement academic coursework aligned to N.J.A.C. 6A:8-5.1 that prepares all students for success in postsecondary education and/or careers after graduation, including the development of academic skills integral to success in rigorous high school courses.

All required courses shall:

1. Be developed, reviewed, evaluated, and revised by a broad cross-section of teachers, content supervisors, and the Principal;

Secondary school districts that administer the high school State assessment and in which ten percent or more of their students satisfy high school graduation requirements through the Special Review Assessment (SRA) shall submit to the Department of Education by November 15 of the subsequent school year an analysis of all students who graduated by means of the SRA in the previous school year. 2430 CO-CURRICULAR ACTIVITIES

The Board of Education believes that the goals and objectives of this district are best achieved by a diversity of learning experiences, some of which are more appropriately conducted outside the regular instructional program of the school. The purpose of such co-curricular activities shall be to develop leadership capacities and good organizational skills, to aid in the socialization of students, and to enable students to explore a wider range of individual interests than might be available in the regular curricular program.

The Board shall make school facilities, supplies, and equipment available and assign staff members for the support of a program of co-curricular activities for students in grades Kindergarten through eight. The Board shall maintain the program of co-curricular activities at no cost to participating students, except that students may be required to provide supplies in accordance with Board Policy No. 2520 on instructional supplies and students may be required to assume all or part of the costs of travel and attendance at co-curricular events and trips.

For purposes of this policy, co-curricular activities are those activities conducted on or off school premises by clubs, associations, and organizations of students sponsored by the Board and do not include athletic competitions and practices. Co-curricular activities must be related to the curriculum but are not offered for credit toward promotion or graduation and are ordinarily conducted wholly or partly outside the regular school day.

The Board expressly declines to create a limited open forum for activities initiated by students. Accordingly, a group of students who wish to meet on school premises shall apply to the Building Principal for permission to meet and must demonstrate to the Principal the relationship of their meeting to the curriculum. The Principal shall permit only those meetings that relate specifically to the curriculum.

No co-curricular activity shall be considered to be under the sponsorship of this Board unless it has been approved by the Board on recommendation of the Chief School Administrator.

Students shall be fully informed of the co-curricular activities available to them and of the eligibility standards established for participation in co-curricular activities. Co-curricular activities shall be available to all students who voluntarily elect to participate except that where eligibility requirements specific to an organization are necessary or desirable, the Board shall be so informed and must approve the establishment of such eligibility standards before they may be operable.

The Board will not permit the organization of a fraternity, sorority, or secret society.

A student in grades Kindergarten through eight is ineligible for participation in co-curricular activities if he/she has:

1. Demonstrated unsatisfactory attendance by failing to maintain a record of eighty-five percent attendance;
2. Failed to maintain an average grade of passing in each marking period;
3. Failed a course required for promotion or graduation in the preceding semester; or
4. Received a notice of warning of failure in a course required for promotion or graduation in the current semester.

Notwithstanding these standards, a student who has commenced preparation for participation in a public performance of a concert, recital, drama, debate or the like may continue to participate until the student has completed the performance.

No student who has been absent for a school day may participate in a co-curricular activity scheduled for the afternoon or evening of that school day.

The Board will not permit students who reside in this district and who are not enrolled in the public school to participate in noncompetitive co-curricular activities on a space-available basis. Participants will be permitted only on written application and the applicant's assurances that the student agrees to be bound by the policies, rules, and regulations of this district.

The Chief School Administrator shall prepare procedures to implement a co-curricular program and shall assess the needs and interests of the students of this district and provide for the continuing evaluation of the co-curricular program.

A student who is serving an in-school or out-of-school suspension may not participate in school district sponsored programs of athletic competition while serving the suspension.

4. A student in any grade who fails to observe school rules for student conduct may forfeit his/her eligibility for participation in school district sponsored programs of athletic competition.

Students enrolled in grades six to eight must receive a medical examination, in accordance with the provisions of N.J.S.A. 18A:40-41.7, prior to participation on a school-sponsored interscholastic or intramural team or squad and any cheerleading program or activity.

The examination shall be conducted within 365 days prior to the first day of official practice in an athletic season with examinations being conducted at the medical home of the student. The "medical home" is defined as a health care provider and that provider's practice site chosen by the student's parent for the provision of health care pursuant to N.J.A.C. 6A:16-1.3. If a student does not have a medical home, the school district shall provide the examination at the school physician's office or other comparably equipped facility. The parent may choose either the school physician or their own private physician to provide this medical examination. The medical examination required prior to participation shall be in accordance with the requirements as outlined in N.J.A.C. 6A:16-2.2(h)1 and Regulation 2431.2 and shall be documented using the Preparticipation Physical Evaluation form required by the Department of Education.

The school district shall distribute the Commissioner of Education developed sudden cardiac arrest pamphlet to a student participating in or desiring to participate in an athletic activity, as defined in N.J.S.A. 18A:40-41.e., and the student's parent(s) shall each year and prior to participation by the student in an athletic activity comply with the requirements of N.J.S.A. 18A:40-41.d.

Information concerning a student's HIV/AIDS status shall not be required as part of the medical examination or health history pursuant to N.J.S.A. 26:5C-1 et seq. The health findings of this medical examination shall be maintained as part of the student's health record.

Emergency Procedures

Athletic coaches shall be trained in first aid to include sports-related concussion and head injuries, the use of a defibrillator, the identification of student-athletes who are injured or disabled in the course of any athletic program or activity, and any other first aid procedures or other health related trainings required by law or the Chief School Administrator.

The Chief School Administrator or designee shall establish and implement an emergency action plan for responding to a serious or potentially life-threatening sports-related injury in accordance with N.J.S.A. 18A:40-41.11. The plan shall document the proper procedures to be followed when a student sustains a serious injury while participating in sports or other athletic activity in accordance with N.J.S.A. 18A:40-41.11.

The emergency action plan shall be reviewed annually and updated as necessary. The plan shall be rehearsed annually in the school by the individuals who will be responsible for executing the plan in an emergency pursuant to N.J.S.A. 18A:40-41.11.

The Chief School Administrator or designee shall prepare procedures for responding to a non-serious or non-life-threatening injury sustained by a student while participating in sports or other athletic activity. These procedures shall be reviewed annually, updated as necessary, and disseminated to appropriate staff members.

2431.3 HEAT PARTICIPATION POLICY FOR STUDENT-ATHLETE SAFETY

The Board of Education adopts this Policy as a measure to protect the safety, health, and welfare of students participating in school-sponsored athletic programs and extra-curricular activities. The Board believes practice and pre-season heat participation guidelines for students will minimize injury and enhance a student's health, performance, and well-being.

In accordance with the provisions of N.J.S.A. 18A:11-3.10, a school district which is a member of any voluntary association, pursuant to N.J.S.A. 18A:11-3, which oversees activities associated with Statewide interscholastic sports programs shall adopt and implement the most current "Heat Participation Policy" required by the New Jersey State Interscholastic Athletic Association (NJSIAA) for conducting practice or games in all sports during times of high heat or humidity.

The NJSIAA Policy shall address:

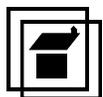

1. The scheduling of practice or games during times of various heat and humidity levels;
2. The ratio of time devoted to workouts to time allotted for rest and hydration during various heat and humidity levels; and
3. The heat and humidity levels at which practice or games will be canceled.

The guidelines included in the NJSIAA Heat Participation Policy shall provide a default Policy to those responsible or sharing duties for making decisions concerning the implementation of modifications or cancellation of practices or games based on the presence of heat and humidity.

The Board of Education shall purchase a WetBulb Globe Temperature (WBGT) tool to measure the heat stress in direct sunlight at the practice or game site. Heat stress consists of temperature, humidity, wind speed, the angle of the sun, and cloud coverage.

The Board of Education shall adopt and implement the provisions of the NJSIAA Heat Participation Policy concerning the frequency and recording of WBGT measurements.

The provisions and requirements of this Policy and of the NJSIAA current Heat Participation Policy, which shall be utilized in conjunction with the current NJSIAA Pre-Season Heat Acclimatization Policy, shall be carried out by the Athletic Trainer, certified designee, or

individual as appointed by the school staff member designated by the Chief School Administrator to supervise athletics, which may include a coach or individual responsible for sharing duties for making decisions concerning the implementation of modifications or cancellation of practices and games based on WBGT measurements.

A copy of this Policy and NJSIAA's current Heat Participation Policy and Pre-Season Heat Acclimatization Policy shall be provided to each coach, as appropriate, and reviewed with all coaches by the Principal or designee which may include, but not be limited to, the Athletic Trainer or staff member supervising athletics as designated by the Chief School Administrator prior to the first practice session of the season for each team. The Chief School Administrator shall designate the staff member responsible to ensure compliance with this Policy and NJSIAA's current Heat Participation Policy and Pre-Season Heat Acclimatization Policy.

This Policy and the requirements outlined in this Policy shall apply to all student-athletes in grades nine through twelve participating in Statewide high school interscholastic athletic programs.

The school district will implement provisions of this Policy as determined by the Chief School Administrator or designee for student-athletes participating in athletic programs other than students in grades nine through twelve to include students in grades five through eight.

2431.4 PREVENTION AND TREATMENT OF SPORTS-RELATED CONCUSSIONS AND HEAD INJURIES

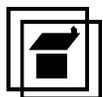

A concussion is a traumatic brain injury caused by a direct or indirect blow to the head or body. In order to ensure the safety of students that participate in interscholastic athletics and cheerleading programs, it is imperative that student-athletes, cheerleaders, coaches, and parents are educated about the nature and treatment of sports-related concussions and other head injuries. Allowing a student-athlete or cheerleader to return to play before recovering from a concussion increases the chance of a more serious brain injury.

Every school district that participates in interscholastic athletics or cheerleading programs is required to adopt a policy concerning the prevention and treatment of sports-related concussions and other head injuries among student-athletes and cheerleaders in accordance with the provisions of N.J.S.A. 18A:40-41.1 et seq. For the purpose of this Policy, “interscholastic athletics” shall be Kindergarten through eighth grade school-sponsored athletic programs where teams or individuals compete against teams or individuals from other schools or school districts. For the purpose of this Policy, “cheerleading program” shall be Kindergarten through eighth grade school-sponsored cheerleading programs.

The school district will adopt an Interscholastic Athletic and Cheerleading Head Injury Training Program to be completed by the team or school physician, licensed athletic trainer(s) involved in the interscholastic athletic program, all staff members that coach an interscholastic sport or cheerleading program, designated school nurses, and other appropriate school district personnel as designated by the Chief School Administrator. This Training Program shall be in accordance with guidance provided by the New Jersey Department of Education and the requirements of N.J.S.A. 18A:40-41.2.

The Principal or designee shall distribute the New Jersey Department of Education Concussion and Head Injury Fact Sheet and Parent/Guardian Acknowledgement Form to every student-athlete who participates in interscholastic sports and every cheerleader who participates in a cheerleading program. The Principal or designee shall obtain a signed acknowledgement of the receipt of the Fact Sheet by the student-athlete or cheerleader’s parent and keep on file for future reference.

Prevention of a sports-related concussion and head injuries is an important component of the school district’s program. The school district may require pre-season baseline testing of all student-athletes and cheerleaders before the student begins participation in an interscholastic athletic or cheerleading program.

Any student-athlete or cheerleader who exhibits the signs or symptoms of a sports-related concussion or other head injury during practice or competition shall be immediately removed from play and may not return to play that day. Emergency medical assistance shall be contacted when symptoms get worse, loss of consciousness, direct neck pain associated with the injury, or any other sign the supervising school staff member determines emergency medical attention is needed. If available when the student-athlete or cheerleader is exhibiting signs or symptoms, the student will be evaluated by the school or team physician. The Principal or designee shall contact the student's parent and inform the parent of the suspected sports-related concussion or other head injury.

Possible signs of a concussion can be observed by any school staff member or the school or team physician. Any possible symptoms of a concussion can be reported by the student-athlete or cheerleader to: coaches; licensed athletic trainer; school or team physician; school nurse; and/or parent. The Principal or designee shall provide the student-athlete or cheerleader with Board of Education approved suggestions for management/medical checklist to provide to their parent and physician or other licensed healthcare professional trained in the evaluation and management of sports-related concussions and other head injuries.

A student-athlete or cheerleader who participates in interscholastic athletics or a cheerleading program and who sustains or is suspected of sustaining a concussion or other head injury shall be required to have a medical examination conducted by their physician or licensed health care provider. The student's physician or licensed health care provider shall be trained in the evaluation and management of concussion to determine the presence or absence of a sports-related concussion or head injury.

The student's physician or licensed health care provider must provide to the school district a written medical release/clearance for the student indicating when the student is able to return to the activity. The medical release/clearance must indicate the student-athlete or cheerleader is asymptomatic at rest and either may return to the interscholastic athletic activity or cheerleading program because the injury was not a concussion or other head injury or may begin the district's graduated return to competition and practice protocol outlined in Regulation 2431.4. A medical release/clearance not in compliance with this Policy will not be accepted. The medical release/clearance must be reviewed and approved by the school or team physician.

In order to ascertain that school sponsored publications do not violate the standards established by this policy, the Board requires that each publication be submitted to the Principal for review in advance of its distribution. A publication that contains material in violation of this policy may not be distributed.

Where the Principal cannot show, within two school days, that the publication violates the prohibitions of this policy, the publication must be released for distribution. The Principal's determination, if any, that the publication violates this policy must be supported by references to specific material in the publication. The identification process shall include consideration of all students, including those who are English language learners and those with Individualized Education Plans or 504 Plans.

2466 NEEDLESS PUBLIC LABELING OF STUDENTS WITH DISABILITIES

The Board of Education guarantees the privacy provided by law that no student with a disability be labeled publicly. Therefore, any reference to a student with a disability brought to the attention of the Board and/or any other potential public reference to a student with a disability will be through the use of a district-developed method of coding that would ensure a student's name or other labeling would not identify the student as a student with a disability. Examples where public labeling of students with disabilities shall be avoided include, but are not limited to, Board meeting agenda information, public address announcements, building/classroom signs, public school documents, and/or any other school publication identifying a student with a disability or class/program of students with disabilities.

Special education classes shall be referred to publicly by the name of the teacher. This applies to schedules, class lists, transportation lists, public address announcements, and any other form of communication that has any potential for any exposure other than for the use by appropriately authorized school staff.

Exceptions to the prohibition of public labeling of students with disabilities may be made upon consent of the student's parent(s) or legal guardian(s).

All student records shall be maintained strictly in accordance with N.J.A.C. 6A:32-7.1 et seq.

2467 SURROGATE PARENTS AND FOSTER PARENTS

Federal and State laws require the Board ensure the rights of a student are protected through the provision of an individual to act as surrogate for the parent and assume all parental rights under N.J.A.C. 6A:14-2.2 when:

1. The parent, as defined according to N.J.A.C. 6A:14-1.3, cannot be identified;
2. The parent cannot be located after reasonable efforts;
3. An agency of the State of New Jersey has guardianship of the student and that agency has not taken steps to appoint a surrogate parent for the student;
4. The student is a ward of the State and no State agency has taken steps to appoint a surrogate parent for the student;
5. No parent can be identified for the student in accordance with N.J.A.C. 6A:14-1.3 except a foster parent, the foster parent does not agree to serve as the student's parent, and no State agency has taken steps to appoint a surrogate parent for the student; and
6. The student is an unaccompanied homeless youth and no State agency has taken steps to appoint a surrogate parent for the student.

Qualifications and Selection

The district will make reasonable efforts to appoint a surrogate parent within thirty days of its determination that a surrogate parent is required for a student. If the district fails to appoint a surrogate parent for a ward of the State, a judge may appoint a surrogate parent if the judge determines a surrogate parent is necessary for such student.

The person serving as a surrogate parent shall:

1. Have no interest that conflicts with those of the student he/she represents;
2. Possess knowledge and skills that ensure adequate representation of the student;
3. Not be replaced without cause;

4. Be at least eighteen years of age;

The Supervisor of Special Services shall serve as Surrogate Parent Coordinator and will: determine whether there is a need for a surrogate parent for a student; contact any State agency that is involved with the student to determine whether the State has a surrogate parent appointed for the student; and make reasonable efforts to appoint a surrogate parent for the student within thirty days of determining that there is a need for a surrogate parent for the student.

When a student (who is or may be a student with a disability) is in the care of a foster parent, and the foster parent is not the parent of the student as defined in N.J.A.C. 6A:14-1.3, the district where the foster parent resides shall contact the student's case manager at the Division of Child Protection and Permanency (DCP&P) in the Department of Children and Families to determine whether the parent retains the right to make educational decisions and determine the whereabouts of the parent.

If the parent retains the right to make educational decisions and the parent's whereabouts are known to the school district, the Surrogate Parent Coordinator shall obtain all required consent from and provide written notices to the parent.

If the district cannot ascertain the whereabouts of the parent, the foster parent, unless that person is unwilling to do so, shall serve as the parent pursuant to N.J.A.C. 6A:14-1.3. If there is no foster parent, or if the foster parent is unwilling to serve as the student's parent, the Surrogate Parent Coordinator shall consult with the student's case manager at DCP&P to assist in identifying an individual to serve as a surrogate parent and appoint a surrogate parent and obtain all required consent from, and provide written notices to, the surrogate parent.

3. Providing the surrogate parent adequate time to become familiar with the student and the nature of the student's disability through a review of the student's record;
4. Providing the surrogate parent an opportunity to confer with the student's case manager to discuss the student; and
5. Other information and resources to provide the surrogate parent the knowledge and skills to ensure adequate representation of the student.

Rights of the Surrogate Parent

2468 INDEPENDENT EDUCATIONAL EVALUATIONS

Special education law permits a parent to request an independent educational evaluation (IEE) for their child if there is disagreement with any evaluation provided by the Board of Education. An “independent educational evaluation” is an evaluation conducted by a qualified examiner who is not an employee of the public school district responsible for the education of the child in question. Such IEEs shall be provided at no cost to the parent unless the school district initiates a due process hearing in accordance with the provisions of N.J.A.C. 6A:14-2.7 et seq. to show that its evaluation is appropriate and a final determination to that effect is made following the hearing. If it is determined the school district’s evaluation is appropriate, the parent still has the right to an IEE, but not at the school district’s expense.

Upon receipt of a parental request for an IEE, the school district shall provide the parent with information about where an IEE may be obtained and the criteria for IEEs according to N.J.A.C. 6A:14-2.5(c)3 and (c)4 and the additional criteria outlined below in this Policy:

1. Any IEE paid for with public funds shall:
 - a. Be conducted according to the provisions of N.J.A.C. 6A:14-3.4; and
 - b. Be obtained from another public school district, educational services commission, jointure commission, a clinic or agency approved under N.J.A.C. 6A:14-5, or private practitioner, who is appropriately certified and/or licensed, where a license is required.
2. An independent medical evaluation may be obtained according to N.J.A.C. 6A:14-5.1(e).

Additional criteria for an IEE shall be as follows:

1. The Board will not pay for an IEE unless it complies with the following criteria unless the parent can show that unique circumstances warrant deviation from same:
 - a. The independent evaluator must be appropriately certified and/or licensed in the State of New Jersey. In instances where no applicable certification/license exists, the evaluator must provide the Board with documentation of extensive and recent training and experience related to the assessment of the known or suspected disability;

- b. The independent evaluator may only charge fees for educational evaluation services that, in the judgment of the Board, are reasonable in accordance with 2. below;
 - c. The independent evaluator must be free from any conflict of interest;
 - d. The independent evaluator and members of the Child Study Team must be permitted to directly communicate and share information with each other. The independent evaluator must also agree to release the assessment information, results, and report(s) to the school district prior to receipt of payment for services;
 - e. For any independent evaluation, whether paid for with public or private funds, the school district shall permit the evaluator to observe the student in the classroom or other educational setting, as applicable; and
 - f. The independent evaluator shall make at least one contact with the student's case manager for the purpose of determining how the student is progressing in his/her current programming.
2. The maximum allowable cost for an independent evaluation will be limited to the reasonable and customary rate, as determined and approved by the Board annually. This rate shall be in the range of what it would cost the Board to provide the same type of assessment through either another public school district, educational services commission, jointure commission, a clinic or agency approved under N.J.A.C. 6A:14-5, or private practitioner, who is appropriately certified and/or licensed, where a license is required. This Board-approved rate shall be provided to the parent upon their request for an IEE. The Board shall not be responsible for any costs beyond the IEE, such as transportation, lodging, food, etc.
- a. The parent may provide documentation to the Board demonstrating unique circumstances to justify an IEE that exceeds the maximum allowable cost established by the Board. If, in the Board's judgment, there is no justification for the excess cost, the Board may agree to fund the IEE up to the school district's maximum allowable cost with the parent responsible for any remaining costs. In the alternative, the Board may request a due process hearing to enforce its established maximum allowable cost.

Independent Educational Evaluations

Upon receipt of a parental request for an IEE, the school district shall take steps to ensure the IEE is provided without undue delay or not later than twenty calendar days after receipt of the parental request, the school district shall request a due process hearing in accordance with the provisions of N.J.A.C. 6A:14-2.7 et seq. to show that its evaluation is appropriate.

If a parent requests an IEE, the school district may ask the parent to explain why he or she objects to the school district's evaluation. However, the school district shall not require such an explanation and shall not delay either providing the IEE or initiating a due process hearing to defend the school district's evaluation.

Any IEE submitted to the district, including an IEE obtained by the parent at private expense, shall be considered in making decisions regarding special education and related services.

If an Administrative Law Judge orders that an IEE be conducted, the IEE shall be obtained by the district in accordance with the decision or Order of the Administrative Law Judge, and the Board of Education shall pay the cost of the IEE in accordance with the provisions of this Policy.

A parent is entitled to only one IEE paid for by the Board each time the school district conducts an evaluation with which the parent disagrees.

2510 ADOPTION OF TEXTBOOKS

The Board of Education shall approve all textbooks used in the educational program of this district. "Textbook" means the principal source of instructional material for any given course of study, in whatever form the material may be presented, which is available or distributed to every student enrolled in the course of study.

The Board shall consider for approval only those textbooks that have been selected and recommended by the Chief School Administrator.

In considering the approval of any proposed textbooks, the Board will weigh its value as a learning tool; its suitability for the maturity level and educational accomplishment of the students who will be using the book; its freedom from bias; its relationship to a course of study adopted by the Board; its relationship to a continuous multigrade program; its impact on community standards of taste; the manner by which it was selected; and its cost, appearance, and durability.

The Chief School Administrator shall develop regulations for the selection of textbooks that include effective consultation with professional staff members at all appropriate levels.

The staff shall continually research new sources of textbooks and explore the innovative use of all possible books.

Textbooks currently in use shall be periodically evaluated for their continuing usefulness and relevance and shall be replaced or updated with new editions as often as necessary to meet the needs of students and the curriculum.

Such materials include reference books, other supplementary titles, maps, library print and non-print materials, and other sources of information for use by students that are not designated as textbooks.

The Chief School Administrator shall be responsible for the selection and maintenance of all resource materials, in accordance with the following standards:

1. Material will be suited to the varied interests, abilities, reading levels, and maturation levels of the students to be served;
2. Wherever possible, materials will provide major opposing views on controversial issues so that students may develop under guidance the practice of critical reading and thinking;
3. Wherever possible, materials will represent the many religious, ethnic, and cultural groups and their contribution to American heritage;
4. Materials will be factually accurate and of genuine literary or artistic value;
5. Materials will be of a quality and durability appropriate to their intended uses and longevity;

2531 USE OF COPYRIGHTED MATERIALS

The Board of Education encourages teaching staff members to make judicious use of appropriate printed materials, sound recording, televised programs, and computer software in the curriculum but recognizes that Federal law, applicable to public school districts, protects the originators of those materials from the unauthorized use of their copyrighted works. The Board expressly forbids the use of school equipment for the illegal reproduction of copyrighted materials.

In order to define the fair and reasonable use that teaching staff members may make of copyrighted works for educational purposes without the permission of the copyright owner and to reduce the risk of copyright infringement, the Board directs the Chief School Administrator to promulgate regulations regarding the copying and distribution of copyrighted materials for instructional purposes.

Computer software may be reproduced only for archival purposes or when copying is an essential step in the utilization of the program. Computer software should be purchased in sufficient quantity to permit its classroom use without simultaneous loading. Where appropriate, the Chief School Administrator shall seek a licensing agreement with the software publisher that permits the reproduction of software, the simultaneous use of software, and the purchase of multiple copies of software at discount prices.

2560 LIVE ANIMALS IN SCHOOL

The Board of Education recognizes the appropriate use of live animals as instructional resources can enrich the educational program. The observation and nurture of live animals can help children learn specific biological and behavioral principles and gain respect for all living things.

A staff member who uses live animals shall observe proper precautions for the safety of students and the animals. The Principal or designee must approve a live animal being brought into the school building and the use of any animal in a course of instruction or the establishment of an animal habitat in a classroom.

An animal susceptible to rabies must have been vaccinated against rabies and proof of such vaccination must be included with the request to bring a live animal into the school submitted to the Principal or designee before a live animal is brought onto school grounds or into a school building. No animal shall be permitted in any area of the school where a student who is allergic to the animal might be exposed to the animal.

A teacher or other qualified adult must assume primary responsibility for the animal, its nourishment, and its sanitary living conditions. The staff member in charge must make proper arrangements for the animal's care and feeding over weekends, holidays, and school vacation periods.

No experiment that deprives a living animal of nourishment or exposes the animal to harm shall be conducted.

A student in Kindergarten through grade eight may refuse to dissect, vivisection, incubate, capture, or otherwise harm or destroy animals or any parts thereof as part of a course of instruction. In the event the school program will require any such activities, the school will notify the student and parent(s) or legal guardian(s) at the beginning of each school year of the right to decline participation in such activities. Within two weeks of the receipt of the notice from the school, the parent(s) or legal guardian(s) shall notify the school if the right to decline participation in such activities will be exercised. Any student who chooses to refrain from participation in or observation of such activities shall be offered an alternative education project for the purpose of providing the student with the factual knowledge, information, or experience required by the course of study. A student may refuse to participate in an alternative education project which involves or necessitates any harmful use of an animal or animal part(s). A student shall not be discriminated against, in grading or in any other manner, based upon a decision to exercise the rights afforded pursuant to this act.

2622 STUDENT ASSESSMENT

The Commissioner of Education, in accordance with N.J.S.A. 18A:7C-1 et seq. and 18A:7E-2 and 3, may implement assessments of student achievement in any grade(s) and by such assessments as he or she deems appropriate. The Commissioner shall report to the State Board of Education the results of such assessments.

The Commissioner shall implement a system and related schedule of Statewide assessments to evaluate student achievement of the New Jersey Student Learning Standards (NJSLs). The Commissioner, with the approval of the State Board of Education, shall define the scope and level of student performance on Statewide assessments that demonstrate thorough understanding of the knowledge and skills delineated by the NJSLs at grade levels three through eight. After consultation with the Commissioner, the State Board of Education shall establish by resolution uniform Statewide criteria defining adequate school district progress toward meeting the NJSLs.

State assessments provide parents with important information about their child's progress; detailed diagnostic information about each individual student's performance that educators, parents, and students can utilize to enhance foundational knowledge and student achievement; and include item analysis which will clarify a student's level of knowledge and understanding of a particular subject or area of a subject. The data derived from State assessments will be utilized by teachers and administrators to pinpoint areas of difficulty and customize instruction accordingly. Such data can be accessed and utilized as a student progresses to successive school levels.

Pursuant to N.J.A.C. 6A:8-4.1(b) and (c), all students at grade levels three through eight, and at any other grade(s) designated by the Commissioner pursuant to N.J.A.C. 6A:8-4.1(a), shall take all appropriate Statewide assessments as scheduled. There is no provision for a student to opt-out of Statewide assessments. If a student is absent on a testing date, the student will be expected to take the missed test on another school day. Parents and students will be informed of all scheduled testing dates, including make-up testing dates for students who missed the initial testing date.

Statewide Assessment System
